Education

Indian Institute of Technology, Bhubaneswar

B.Tech in Electronics and Communication Engineering

CGPA: 9.02/10

Oct 2022 - May 2026

MG Inter College, Gorakhpur

Intermediate - Board of High school and Intermediate education, U.P. (UP Board)

81.6%

2022

Experience

ZL Technologies

July 2026 – Present

MTS - Engineering

- Contributing to **software development** through backend development, debugging, and **production maintenance**.
- Collaborating with the engineering team to develop, test, and improve **internal software components** and workflows.

Media.Net

May 2025 – July 2025

Software Development Intern

- Optimized** a pattern-search service by **90%** by replacing expensive table-join operations with **query-based filtering**, while leveraging the existing **Aho-Corasick tree** for efficient multi-pattern searching.
- Engineered a benchmarking pipeline for **LLM-based keyword generation**, improving evaluation of quality, relevance, and cost while **reducing API costs** by **20%** and latency by **40%**.
- Architected a **spam classification** system integrating LLMs with ClickHouse Data to enable **multi-modal** analysis.

MathonGo

June 2024 – Aug 2024

Frontend Development Intern

Remote

- Developed **LMS** using **Next.js**, improving performance and page load time by **20%**, enhancing **user experience**.
- Built a scalable library of **30+ reusable components** with **Shadcn-UI** and managed state efficiently with **Redux**.
- Collaborated with cross-functional teams to deliver high-quality, tested frontend components using **Storybook**.

Projects

General Championship App

App Development | React Native

- Developed **General Championship** mobile app using React Native, serving **2000+** students across **50+** events.
- Architected **live scores, leaderboards, latest news** with Firebase, **boosting engagement 20%**, turnout **40%**.
- Reduced **API usage by 20%** by implementing **efficient API management** with Node.js, React Native, Firebase.

EduSync - College ERP System

Full Stack Web development

- Achieved **Rank 1** in IIT BBS Web Hackathon by creating ERP serving **students, teachers, and administrators**.
- Engineered **5+** core modules like **class scheduling, attendance tracking, assignment scheduling** and grading.
- Implemented **location-based attendance**, allowing only **students within 50m** to be marked, reducing proxies.

Technical Skills

Languages: C, C++, JavaScript

Frontend: React.js, Next.js, React Native, HTML, CSS, Tailwind CSS

Backend/Database: Node.js, Express.js, MongoDB

Other Tools: Git, GitHub, Postman, VS Code

CS Fundamentals: Data Structures, OOPS, Operating Systems, Computer Networks

Coding Profiles: [Codechef](#) , [Codeforces](#), [Leetcode](#)

Achievements

- Built a **Two-Wheeled Self-Balancing Robot**, won **2nd place** and an **INR 1M** at **ROBOFEST 4.0**.
- Secured Global **Rank 27** in **CodeChef Starters 155**, competing against thousands of participants.
- Achieved a rating of **4-star on Codechef** and **Specialist on Codeforces** in competitive programming.

Position of Responsibility

- Governor, IIT Bhubaneswar Coding Society:** Led and mentored a community of **150+ students**, organizing coding contests, peer-learning sessions, and fostering a culture of competitive programming.
